Quest relocated in March of 2007 to our brand-new state of the art facility in Cartersville, GA. Located on 10 acres, our 22,000 square foot terminal houses our office and maintenance facilities.

Inside our new facility is a lounge dedicated solely to drivers. In order to accommodate driver's needs, the lounge has washers, dryers, vending machines, shower areas, and a television area. We also provide internet access, and a computer and printer supplied so that drivers can check their settlements and print a copy at their leisure.

The maintenance area consists of 6 bay doors for servicing tractors and trailers. Our shop is home to professionally trained mechanics who are available until 2:00 am, 7 days a week to get you repaired and back on the road as soon as possible. Here they will take care of warranty repairs, service, and tires for both tractors and trailers.
